

# Commercial Hand Washing Solutions

ACORN® WASH-WARE® PRODUCTS

MODEL NO. 3506

What's one of the biggest dangers to health?

# GERMS.

Every public, commercial, and office building needs a hand washing and hygiene plan. Acorn® Wash-Ware® products offer flexible, adaptable, and aesthetically pleasing options for every situation.

## Perfect for High-Traffic Areas

Fabricated from heavy-duty stainless steel and other durable materials, Acorn® Wash-Ware® products are designed to stand up to heavy use for years to come. Easy maintenance also helps to reduce long-term costs.

# Deluxe Portable Wash-Ware® Sinks

## Clean hands anywhere!™

- Set up anywhere, no plumbing required
- Hands-free options with foot pump operation or sensor faucet
- Supplied by ¾" hose or onboard water tank
- Suitable for indoor or outdoor use\*
- 31" junior height for schools and child care centers

**DELUXE MODELS** come standard with rolling casters for quick and easy transit between locations, and feature oval bowls. Deluxe models ship fully assembled.

**DELUXE PLUS MODELS** provide warm water via an onboard heater, but require no external plumbing hookup, only an electrical outlet.

## Models & Descriptions

- **PS1010**  
Foot pump operation with onboard water and waste tank.
- **PS1015**  
¾" hose connections for fresh water and waste.
- **PS1020**  
¾" hose connection for fresh water; onboard waste tank.
- **PS1021**  
¾" hose connection for fresh water; onboard waste tank. Includes flood-resistant shutoff system that triggers when tank is full.
- **PS1030**  
Electric pump operation with onboard water and waste tanks. Requires electricity.
- **PS1040**  
¾" hose connection for fresh water; onboard waste tank. Includes point-of-use water heater. Requires electricity.
- **PS1041**  
¾" hose connection for fresh water; onboard waste tank. Includes point-of-use water heater and flood-resistant shutoff system.
- **PS1042**  
5-gallon tank for fresh water; ¾" hose connection for waste water. Operation by on-demand pump.
- **PS1050**  
3/4" hose connection for fresh water; waste drains via vacuum plumbing system.
- **PS1051**  
¾" hose connection for fresh water; waste drains via vacuum plumbing system. Includes point-of-use water heater. Requires electricity.

*\*Outdoor use is dependent on configuration. Models that require electricity should not be kept outdoors.*

# Deluxe Wall-Mounted Trough

## DSW Series

Acorn Engineering Company offers hand washing in one convenient, space-saving unit with the Deluxe Stainless Steel Wall-Mounted Hand Wash Trough. The space-saving design allows for hand washing to fit in small spaces and the units can be placed indoors or out, providing a consistent look.

- One to four station units available.
- Choice of bottle filler or faucet at each station (soap dispenser optional)
- Choice of sensor-operated or wrist blade handle operated faucet.
- Splash guard option provides division between users.
- One, two, three and four user units (30", 60", 90" and 120" wide)
- ADA wall mount
- Optional compact heavy-duty bottle filler (with sensor activation or push button), splash guard, trap cover, soap dispenser (sensor & pump mount), Enviro-Glaze® powder coating, and H & C wrist-blade faucet.
